

Job Opportunities

This page will need to be continually updated as nursing careers are opened and filled around the state of Nebraska. As we looked at other states' AONE websites, we sought a site that...

- *required very little upkeep by N.O.N.L. members*
- *listed all the most current healthcare job openings throughout Nebraska*
- *provided a way to generate revenue*

The top five sites we chose based on these criteria for this webpage offered healthcare facilities around the state to post current job openings on this one centralized webpage for a small advertising fee. As the site gains recognition as a main hub for job openings statewide, NONL will benefit from advertising fees, without requiring extra time and efforts to maintain the webpage. It may take several years before this site is recognized as a main job listing webpage, but we feel this would be beneficial to both users and NONL.
